### **Care Decisions & Older Adults: KABC Tour Around the State**

For over 42 years, KABC has helped thousands of older adults and families learn more about their long-term care options, including at home, in assisted living, and nursing facilities. What can you afford? What are the benefits and problems with different types of care? What do recent inspection reports say about facilities in your area? What if you need more care later? Learn the answers to these and other questions about care.

Also, learn more about issues affecting the quality of care available for older adults. What is being done about elder abuse, neglect and exploitation? Do you suspect drugs are being used to sedate a loved one instead of providing the care needed? What can you do if you or a loved one is being abused, neglected or over-drugged?

There is no cost to attend. We hope you will come to one of the information sessions below. Light refreshments provided.
